

Hello All, Hope you're getting through this Winter ok?

Anyway this weekend is the Outdoor show in Rock Island, IL Expo Center Feb. 12 to the 15th We're going to be offering some Show specials on Equipment, and Continuing Education dive classes. **So stop over to the show and see what's on Special, and to maybe make a good deal on equipment or and continuing education Scuba classes.**

Now Below is Sealife's Newest Digital underwater camera, Which we have in stock, Stop in to the Dive Shop to take a better look at it, it's a little bit bigger then a Go Pro camera, BUT have More features and just as easy or easier to use, even comes with a Video light.

Now on to the NEW Camera from SeaLife!

During the introduction of SeaLife's new permanently sealed Micro HD camera, SeaLife dealers experienced order delays due to overwhelming consumer demand. Today, SeaLife is pleased to announce that all dealer orders have been fulfilled, and all models of the Micro HD camera are in stock and available for immediate shipment. This includes the standard [Micro HD](#) (16GB), the [Micro HD+](#) (32GB + WiFi), and the [Micro HD+ Sea Dragon Pro Set](#), combining the Micro HD+ camera with a Sea Dragon 2000 Lumen Light.

The popularity of the Micro HD can be attributed to the fact that it's the first permanently sealed camera - there are no O-rings to maintain, no openings or doors that can possibly leak, and no batteries or SD cards. Three large "Piano Key" controls, intuitive menus, and instant focusing make it incredibly easy for underwater photographers of all levels to capture [beautiful 13MP still shots](#) and [stunning 1080p HD video](#).

New accessories for the Micro HD are also fully in stock, including the [10x Close Up Lens](#) which allows the camera to focus within 6-inches of the subject, and a [Mount for GoPro Accessories](#) that allows the camera to be attached to GoPro accessories such as helmet and chest mounts.

Because the Micro HD is flood-proof and very easy to control, it makes the perfect rental camera. SeaLife offers a turn-key Micro HD Rental Kit that includes two cameras, two Sea Dragon 2000 Lumen Lights, and plenty of accessories – a great way for dive retailers and resort operators to earn extra income and let consumers try SeaLife gear before purchasing.

“We’re thrilled with the amazing response, from both consumers and dealers, to the new Micro HD camera and look forward to getting the camera out to dealers at a much fast rate now that we’re fully in stock,” stated Karl Schuster, SeaLife’s Sales Manager.

For further details, pricing information or to place an order, contact your local SeaLife rep or the SeaLife Sales Team.

About SeaLife:

SeaLife underwater cameras, lights and accessories are made and distributed by Pioneer Research in Moorestown, NJ. SeaLife cameras were first introduced in 1993. In 2000 SeaLife made the first digital underwater camera. In 2007 SeaLife developed the first non-housed digital underwater camera, and in 2013 SeaLife introduced the powerful Sea Dragon Lighting system and its innovative Flex-Connect tray, grip, arm and accessory system. SeaLife Cameras, Lighting and Flex-Connect Accessories are sold and serviced in 64 countries around the world.

Now Connie has her Sealife DC-1400 pro set for sale, It comes with housing, camera, Digital external flash, Video light, carrying bag, and ALL the accessories for it. Retail Price is \$1,100.00 Sale price is \$650.00 it's been only used on 3 dive trips.

Now on Classes we have a Nitrox class on Wednesday February 18th.

I'll be leaving with a Group to Roatan, Honduras on the 21st to the 28th,

So won't have much time for anything else, unless you're on the trip with me.

In March I'll be offering All kinds of different classes, Like Equipment specialist, First Aid & CPR, Divemaster, etc .

Last is we just finished closing the deal for Curacao for this November.
